

An hilarious and moving
modern fable

The Raccoon

ALEKSANDR SKOROBOGATOV

The raccoon is a vulnerable, peaceful creature with dreams that may be utterly impossible but that do give him the strength to survive in a ruthless world. And so he attempts to fly, he protects what's good and he fights evil. He overcomes gravity, engages in duels and eliminates fleas. But the real test comes when his beloved chooses a career in showbiz and through deception ends up taxidermied in a museum. The raccoon embarks on a heroic quest to save her and bring her back to life. And luckily, in 'The Raccoon', as in fairy tales, the anti-hero lives happily ever after.

The author pulls out all the linguistic stops and delivers an unforgettable and absolutely hilarious adventure.

NRC

'The Raccoon' is both hilarious and moving. With prose drenched in the vernacular and flirting with the techniques of oral narrative, Skorobogatov shows himself to be an heir of the Russian story-telling tradition of Gogol. With this book, he delivers an ode to the little man who, despite his many imperfections and shortcomings, despite his fears and doubts, despite his tragic vulnerability and utterly impractical dreams, finds the strength to survive - against all laws of nature. An ode to the raccoon, in each of us.

A literary rollercoaster in which the story is as simple as its style is ingenious.

Russian absurdism in spades

DE MORGEN

AUTHOR

Aleksandr Skorobogatov (b. 1963), one of the most original Russian writers of the post-communist era, has lived in Antwerp since the 1990s. He has written short stories, essays and novels. His work boasts the most wondrous, absurd and violent plot twists and is full of long, meandering sentences. He is seen by many as an heir to Dostoevsky, Gogol, Bulgakov, Nabokov, Pelevin, and Sorokin – the surreal line of the Russian literary canon.
